

Mikiko M. Sugiura

Associate Professor in the Center for Global Discovery at Sophia University

She holds a Ph.D. and a master's degree, both in international studies, and the first B. A. in law from the University of Tokyo besides the second B. A. in comparative culture from Sophia University.

Her research interests are in identifying a representative pattern of water resource development and management adjusting to diverse physical (e.c. climate) and non-physical (e.c. culture) conditions, particularly in the Asian-monsoon regions.

Her recent research topics are the social, economic, and environmental value in water, indigenous water management systems in Asia, and modern water management systems comprising many institutions.

Her teaching interests are in conservation, environmental science, development theories, and developing a trans-disciplinary approach to environmental issues.
